** Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to gmaccessorieszone.com or see your dealer for details. Camaro's 20-inch and 21-inch tires are summer performance tires. Summer-only tires tend to wear faster and are more susceptible to damage from road hazards or curb impact than standard-profile tires. All items in the option package are factory installed and are covered under the General Motors New Vehicle Limited Warranty. See dealer for details.
